

## EJOT® H3

Universal hammer-in anchor with plastic injection element, flexible washer and European Technical Assessment

Fastening of insulation boards

### Installation

### Advantages

- ❑ Approved for concrete, solid and perforated masonry
- ❑ Precise installation due to defined anchor washer movement through movable washer
- ❑ The flexible anchor washer assures an optimum positioning in the insulation board, also in case of slightly sloped drilled boreholes
- ❑ Plastic injection element to reduce thermal transmission
- ❑ Short embedment depths, minimum drill hole depth
- ❑ Minimised risk of breaking nails due to fibre-reinforced composites
- ❑ Can be used with an additional spreader washer
- ❑ Premounted nail for quick installation
